

Chapter	Contents	Page No
I	Introduction to Biometric System	1
	1.1. Introduction	1
	1.2. Biometric-Based User Authentication	2
	1.3. Biometric Characteristics	2
	1.4. Biometric Security	3
	1.5. Biometrics Classification	6
	1.5.1 Physiological Biometrics	6
	1.5.2 Behavioral Biometrics	7
	1.6. Biometric Application	7
	1.7. Biometric Systems Architecture	8
	1.8. Unimodal Biometric System	13
	1.9. Multimodal Biometric Systems	14
	1.9.1 Operational Modes of Multimodal Biometric Systems	15
	1.9.2 Finger Print Identification	15
	1.9.3 Iris Identification	18
	1.10. Summary	20
II	Security Attacks in Mobile Ad Hoc Network	21
	2.1. Introduction	21
	2.2. MANET Characteristics	22
	2.3. Ad Hoc Network System Architecture	23
	2.4. MANET Security	26
	2.5. MANET Security Challenges	27
	2.6. Biometric Security in Mobile Ad Hoc Network	28
	2.6.1. Primary Component of Security	29
	2.6.2. Clustering Attack	30
	2.7. MANET Security Attacks	30
	2.8. Classification of MANET Attacks	31
	2.8.1. Black Hole	32
	2.8.2. Byzantine Attack	32

	2.8.3. Spoofing Attack	33
	2.8.4. Sybil Attack	33
	2.8.5. Wormhole Attack	34
	2.8.6. Denial of Service Attack (DoS)	35
	2.8.7. Distributed Denial-of-Service (DDoS) Attack	35
	2.9. Detection Mechanism against the Attacks in MANET	36
	2.10. Summary	38
III	Multimodal Biometric Security	39
	3.1. Introduction	39
	3.2. Multimodal Biometric Schemes	40
	3.2.1. Integration Scenarios of Multimodal Biometrics	41
	3.2.2. Levels of Fusion in Multimodal Biometric Systems	41
	3.3. Security and Research Issues in Multimodal Biometric System	44
	3.4. Biometric-Based Authentication and IDS in MANET	51
	3.5. Cluster-Based MANET Topology	53
	3.5.1. Cluster Based Routing Protocol	53
	3.5.2. Cluster-based Intrusion Detection Technique for MANET	54
	3.5.3. A Hierarchical Connected Dominating Set Based Clustering Algorithm	56
	3.5.4. Clustering Model	58
	3.5.5. Cluster Gateway Node Selection Process	59
	3.6. Summary	60
IV	Intrusion Detection System and Fusion in MANET	61
	4.1. Introduction	61
	4.2. Classifications of Intrusion Detection in MANET	62
	4.2.1. Network Intrusion Detection (NID)	63
	4.2.2. Host Intrusion Detection (HID)	64
	4.2.3. Cross Layer Techniques in IDS	65
	4.3. Intrusion Detection System Architecture	66

4.4. Hierarchical IDS Architecture	68
4.5. Fusion Operators	72
4.5.1. Multi-Sensor Information Fusion	73
4.5.2. Levels of Information Fusion	75
4.5.3. Heterogeneous Multi-Sensor Data Fusion	76
4.5.4. Framework for Decision Fusion	77
4.6. Dempster-Shafer Model	79
4.7. Partially Observable Markov Decision Process (POMDP)	84
4.8. Distributed Authentication and Scheduling	91
4.9. Summary	96
