

Chapter	Contents	Page No
1	Introduction to Quality Management	1
	1.1. Introduction	1
	1.2. TQM Framework	1
	1.3. Quality Awareness	2
	1.4. Obstacles to TQM Implementation	3
	1.5. Quality Statements	3
	1.6. Customer Focus	4
	1.7. Customer Perception of Quality	5
	1.8. Customer Complaints	6
	1.9. Translating Needs into Requirements	7
	1.10. Customer Retention	8
	1.11. Dimensions of Quality	9
	1.12. Quality Costs	10
	1.13. Analysis Techniques for Quality Costs	11
2	Principles and Philosophies of Quality Management	13
	2.1. Deming's Philosophy	13
	2.2. Juran Trilogy	14
	2.3. Joseph Juran	16
	2.4. Philip Crosby	17
	2.5. Masaaki Imai	18
	2.6. Armand V Feigenbaum	19
	2.7. Kaoru Ishikawa	21
	2.8. Taguchi Quality Loss Function	23
	2.9. Signal-to-Noise Ratio	24
	2.10. Quality Circle	26
3	Statistical Process Control and Process Capability	28
	3.1. Statistical Fundamentals	28
	3.2. Measures of Central Tendency and Dispersion	28
	3.3. Population and Sample	31
	3.4. Normal Curve	32
	3.5. Control Charts for Variables & Attributes	32

	3.6. Scatter Diagram	37
	3.7. Process Capability Analysis	38
	3.8. Six Sigma	39
	3.9. Total Productive Maintenance–TPM	42
	3.10. Terotechnology	45
	3.11. Business Process Reengineering	46
4	Tools and Techniques for Quality Management	47
	4.1. Quality Function Deployment	47
	4.2. Voice of Customer	47
	4.3. House of Quality	47
	4.4. QFD Process	48
	4.5. Failure Mode Effect Analysis	49
	4.6. The Seven Old Statistical Tools of Quality	51
	4.7. The New Seven Management Tools	57
	4.8. Benchmarking	62
	4.9. Poka-Yoke	64
5	Quality Systems Organizing and Implementation	65
	5.1. Quality Systems	65
	5.2. Implementation of ISO:9000 Quality System & Documentation	70
	5.3. Requirements of ISO 14001 & Benefits	72
	5.4. Quality Auditing	73
	5.5. Leadership	77
	5.6. Role of Senior Management	78
	5.7. Quality Council	80
	5.8. Employee Involvement	81
	5.9. Motivation	81
	5.10. Employee Empowerment	82
	5.11. Recognition and Rewards	84
	5.12. Performance Appraisal	84
